PROJECTS

Weather-App
Here I build a weather app using "react-native" .
It provides current location timezone weather using openweather API.

React-Redux
Here I build a project using react,redux and type script with my teammates. In this project we fetch the data from fake api . Inthis we can add a product in cart ,in wishlist,and remove it from cart and wishlist and many more functionality are there.

To-Do app
Here I build a to do app using react..I developed it for learning purpose

E-com webpage
Here I build a webpage using html,css,js and bootstrap
